

Econometrics II (WIW.06755)

Winter term 2025/26

Class meeting times

Lecture: Class meetings are twice a week. The first class meeting is on Tuesday, 02.12.2025.

- Tuesday, 10:00 - 12:00, Location: Hörsaal A [Mel]
- Thursday, 14:00 - 16:00, Location: Hörsaal XX [Mel]

Exercise: The first class meeting is on Monday, 08.12.2025.

- Monday, 16:00 - 18:00, Location: Großer Hörsaal [WiWi]
- Thursday, 16:00 - 18:00, Location: Hörsaal B [Mel]

Office hours: We are asking students to register for the office hours by email at least one week in advance.

Christoph Wunder, Mon. 12:30 - 13:30

Katharina Kolb, by appointment

Course description: The course introduces students to advanced methods of econometrics and their application to empirical economic analysis using statistical software packages. The course uses matrix algebra to explain concepts of linear and nonlinear estimation and testing. Econometric methods are described in detail with examples. Students develop the competencies to apply these methods and to critically reflect upon empirical research. Course material will be available via the online E-learning portal. Students should have knowledge of basic concepts in probability, statistics, and econometrics. Students who have taken the course Econometrics I are qualified for this course.

Outline

1. Maximum likelihood estimation
2. Bayesian estimation and inference
3. Discrete choice models
4. Panel data models
5. Time series models

Final exam: The final examination will take place in the form of a home assignment. The home assignment will ask students to apply econometric methods using software. Students may use R or Stata. Students have two weeks to complete the assignment. Students must submit an independently written homework. Joint writing (co-authoring) is not allowed. Registration is in person by adding your name to the registration list at the secretary's office.

Important dates:

	First exam	Second exam
Registration by	26.01.2026	30.03.2026
Issue of topic	09.02.2026	13.04.2026
Withdrawal	16.02.2026	20.04.2026
Submission	09.03.2026, 23:59	11.05.2026, 23:59
